

# JS8Spotter MCForms for SitRepNet

KN4AM • APR 25, 2025 • JS8Spotter Ver. 1.16

▀ Primary form. F!104 should always be kept current and available in Expect, with others optional.

⚙ Keep this form listed in Expect, but replace with "NTR" when form is not currently active.

Form Updates since last JS8Spotter update: F!104, F!105, F!305, F!308

---

F!100 - Amateur Operator Information

10 Items covering your ham radio interests and activities.

F!101 - Amateur Station & Equipment Details

9 items describing your radio, antenna, power, modes, and grid-down capabilities.

F!102 - JS8Call Operation Details

6 items about how you use JS8, experience and comfort level, and bands

▀⚙ F!103 - Net Check-in

4 items for a basic, standard net check-in.

▀ **F!104 - @SITREP Basic Check-in**

6 items for basic check-in and independent information sharing. Designed as a Top Level form that points to any currently active reports. For SitRepNet, this should be kept current and available in Expect.

F!105 - Information Exchange Planning

5 text entry and 6 MC items to initiate information exchange during both normal times and in times of crisis. The focus here is on creating decentralized, independent connections.

F!106 - Impromptu Net Notice

2 text entry and 8 MC items to announce details of an impromptu net to address a specific event. It is not for routine scheduled nets. An "Impromptu Net" could be just 2 stations passing traffic.

⚙ F!300 - Situation Report

12 items and 7 sub-forms reporting on post-disaster conditions.

⚙ F!301 - Field Situation Report

9 items. This covers all the basics in a quick, easy-to-use format.

F!302 - Hospital Bed Report

8 items reporting available hospital beds by specialty.

F!303 - Hospital Status Report

10 items reporting on the infrastructure required to keep a hospital operational.

▀⚙ F!304 - Individual Situation Report

8 items reporting on current infrastructure conditions at your location.

⚙ F!305 - Early Warning Awareness/Alert Report

4 items and 4 text entry fields. Early Warning Awareness/Alert for an anticipated event in which net activation, further communications, or preparedness actions may be called for, along with net and other followup information.

🌀 F!306 - Power Stability Report

1 item reporting on electrical power stability at your location over the last 48 hours, plus 1 item on your station backup power capability.

F!307 - Wildfire Status Report

2 text entries and 7 MC items to report the status of a wildfire.

F!308 - Open Source Information Report

4 text entries and 4 MC items to report open source information for news bulletins.

🌀 F!500 - Local Supply Survey

15 items used to gauge availability of supplies and level of consumer anxiety.

F!501 - Weather Report, Basic

10 items for a basic report on weather conditions.

F!502 - Weather Report, Detailed

10 items for a more detailed report on weather conditions.

🌀 F!505 - Area Assessment

32 items for a very detailed assessment of an area.

F!700 - 4SQRP Net Checkin

6 items used for low power JS8 nets.

F!701 - MAGNET Information & Observation Report

6 items and 3 optional sub-forms to report observations and information.

F!702 - SEEN Operator Station & Equipment Details

9 items to report station and equipment details. Used to assess capabilities in both grid-down and "normal" operating environments.
